TECHNICAL COMMITTEE

Cerebro’26

Technical Festival

Event Proposal

About the Event

The Technical Committee of the Indian Institute of Information Technology Vadodara (IIITV) is proud to announce the next edition of Cerebro, the annual Technical Festival of IIIT Vadodara. Cerebro serves as a platform for technophiles to showcase their talent, wit, and intelligence. The festival aims to bring together great minds through various technical and non-technical events, workshops, talks, and exhibitions.

This year, the festival plans to feature 2 coding events, 2 design events, 4 gaming events, 2 finance events, 2 mathematics events, and 2 robotics events, along with the flagship Tech Hunt — a total of 15 events (final count subject to change as remaining proposals are added).

Proposed Mode: Hybrid (Online + Offline)

Dates: **26th October to 30th October (Online events)**
31st October and 1st November (Offline) [Cerebro Finals]

Expected Participants: 3500 over a span of 7 days (Online & Offline)

Sponsorship Brochure: Annexure I

Coming Soon Poster: Annexure II

Cerebro Leads

Conveyor - Vaghela Pratham K - 20251501170
Co Conveyor - Tirth Doshi - 20251501166
Sponsorship Lead - Aryan Purbhe - 20251503009
Development Lead - Ankit Rai - 20251504008
PR & Social Lead - Kashvi Khandelwal - 20251504042
Design Lead - Damini Khushwaha - 20251504017

Logistics Lead - Shikhar Singh - 20251504070
Logistics CoLead - Yash Bhosle - 20251501048
Decor Lead - Priyanshi Verma - 20251501136

Day	Club	Event	From	To	Mode

Expenditure split

Technical Committee Budget			Budget through Sponsorship	
			Clubs Events	Amount
Reason	Cost in rupees		Tech Hunt (Annexure P)	3,00,000 *
Arcadia*	50,000		CC	15,750 *
Experience Centre	30,000		FnC	16,000 *
Shades*	40,000		9-Bit	16,000 *
Outreach Transportation	10,000		Arcadia	19,000 *
Total	1,30,000		DoT	16,000 *
			Enigma	15000 *
Other Expenditure			Total	3,97,750 worth goodies
MIscellaneous	50,000			
Bus Transport	50,000			
Domain Host	10,000			
Total	1,10,000			
Total Budget for Cerebro 2026				***6,37,750**
Advance required from Tech Committee Budget				**1,30,000**
Amount required from Tech Committee Budget on/after Event				**1,10,000**
Amount expected to be generated through Sponsors				**3,97,750**

Important Points :

- ***3,97,750 Worth approx. Goodies Sponsors will be aimed for the event**
- **1,30,000 Will be required in advance to Purchase Decoration Items and Arcadia**
- **50,000 Would be sponsored from SSIP cell**
- **Electricity and good wifi to be provided by the institute .**
- **Transport for students to be provided as well.**

Core Committee :

Ayush Anil - 202451176
Soham Agarwal - 202452332
Adeen J Nair - 202451182
Aghnivesh - 202451175
Jamil - 202451080

Priyanshu - 202451136
Divyam - 202452316
Ojas - 202451120
Suraj - 202451158
Aashu Raj - 20251501003
Rohit Ranwa - 20251504068
Prashant Sharma - 20251504058
Himanshi - 20251501076
Sai Praneeth - 20251502019
Bhoomi Jaiswal - 20251501047
Ayushi Singh - 20251503014
Saanvi Bajaj - 20251501152
Riyaziya Bano - 20251501147
Shashwat Singh - 20251504069

Companies Approached for Sponsorships and received Commitments

- Received commitment from CodeCrafters for Membership gifts worth approximately **3,00,000** (Annexure Q)
- Submitted Proposal to Gujarat Tourism for Rupees **1,50,000**
- Submitted Proposal to iNDEXTb for Rupees **1,00,000**
- Received Interest from UnStop as well, terms under negotiation
- Also approached **100+** Companies with Sponsorship Brochure awaiting their response
- **3-4 Food Sponsors** likely confirmed for the event each giving approx. 12-15K

Amount received through Sponsorship is to be credited to SAC account and to be used for Technical Committee Events.

Annexure A

CEREBRO 2026-2027

ROBO RACE

Event Title: Robo Race

Organizing Club: 9 Bit – Robotics Club

Venue: IIIT Vadodara Gandhinagar Campus

Duration: 04:00 to 06:00

Modality: Offline (Custom-built soccer field at campus)

Date: 30 October, 2026

Objective

The primary objective of ROBO RACE is to provide participants with an opportunity to apply their theoretical and technical knowledge in the design and development of a functional robotic vehicle. The event aims to promote innovation, engineering aptitude, teamwork, and practical problem-solving skills among students.

It also seeks to encourage active participation in robotics and provide a competitive platform for students to demonstrate their technical and design capabilities.

Event Description

ROBO RACE is a robotics-based competitive event in which participating teams are required to design and construct a robotic vehicle capable of navigating a predefined race track.

Each team may consist of a maximum of four members. The robots will be placed on the designated track individually, and each team will be provided an opportunity to complete the course. The time taken by each robot to successfully complete the track will be recorded.

The race track may incorporate turns, obstacles, slopes, and other technical challenges to evaluate the robot's speed, stability, control, and manoeuvrability. The team whose robot completes the course in the shortest time, after considering any applicable penalties, will be declared the winner.

Technical Specifications

- Maximum robot dimensions: 30cm x 30cm x 30cm
- Maximum weight: 5 kg
- Power supply: Max 12V battery (no direct AC power)

Deliverables

- Design and development of a fully functional robotic vehicle by each participating team.
- Successful demonstration of the robot on the designated race track.
- Evaluation of the robot's speed, stability, control, and manoeuvrability.
- Practical implementation of concepts related to robotics, electronics, and mechanical design.
- Final ranking of participating teams based on course completion time and applicable penalties.

Expected Outcomes

- Enhance participants' practical understanding of robotics and engineering design through hands-on learning.
- Develop technical skills in robot design, construction, testing, and optimisation.
- Strengthen problem-solving, troubleshooting, and critical thinking abilities.
- Foster teamwork, communication, and effective project management among participants.
- Encourage innovation, creativity, and the application of engineering principles to real-world challenges.
- Provide a competitive platform for students to showcase their technical knowledge and robotics skills.
- Promote interest in robotics and inspire continued participation in technical and innovation-driven activities.

Eligibility Criteria

- Open to all B.Tech students at IIIT Vadodara
- First-year students are encouraged to participate
- No prior experience required — mentorship sessions will be conducted before the event

Prizes (to be generated from Sponsorships)

Title	Price worth
Winner	Rs.4000
1st Runner up	Rs.2500
2nd Runner Up	Rs.1500

Rules and Regulations

- Each team shall consist of a maximum of **four (4) participants**.
- Teams must design and build their own robot in accordance with the technical specifications prescribed by the organizers.
- Participants must report to the venue at least **30 minutes** before the scheduled start of the event.
- Each team will be provided **one official attempt** to complete the race track unless otherwise specified by the organizing committee.
- Any external assistance or intentional damage to the track or equipment during the race will result in disqualification.
- The decision of the judges and the organizing committee shall be final and binding in all matters related to the event.

Budget Breakdown

- Prize distribution
- Track materials
- Logistics and setup

Conclusion

ROBO RACE is envisioned as a platform that encourages innovation, technical excellence, and collaborative learning among students. By integrating theoretical knowledge with practical implementation, the event aims to foster creativity, problem-solving, and engineering skills in a competitive environment. It is expected to promote greater interest in robotics while providing participants with valuable hands-on experience and an opportunity to showcase their technical capabilities. The successful execution of this event will contribute to strengthening the robotics culture within the institution and inspire students to pursue further advancements in the field.

Annexure B

CEREBRO 2026-2027

ROBO SOCCER

Event Title: Robo Soccer

Organizing Club: 9 Bit – Robotics Club

Venue: IIIT Vadodara Gandhinagar Campus

Duration: 1 Day (Qualifiers in the morning, Finals in the afternoon)

Modality: Offline (Custom-built soccer field at campus)

Date: 31 October, 2026

Objective

Robo Soccer combines the excitement of football with the creativity of robotics. The event challenges participants to design and control robots capable of dribbling, passing, and scoring goals against an opponent. It encourages skills in robotics engineering, control algorithms, teamwork, and strategic gameplay

Event Description

Robo Soccer is a competitive event where two teams compete to score the most goals in a limited time on a scaled-down soccer field. Matches are fast-paced and require quick thinking, precise control, and smart robot design..

Phase 1: Preparation & Inspection

- Teams present their robots for size, weight, and rule compliance checks.
- Briefing about match rules, scoring, and penalties.

Phase 2: Qualifying Round

- Teams are divided into groups for round-robin matches.
- Top teams from each group advance to knockout rounds.

Phase 3: Finals

- Single-elimination matches until the champion is decided.

Format

- Team participation (4 members)
- Female participation is encouraged
- Robots can be manually controlled or semi-autonomous
- Teams may use 1 or 2 robots per match (as per event guidelines)

Technical Specifications

- Maximum robot dimensions: 30cm x 30cm x 30cm
- Maximum weight: 5 kg
- Power supply: Max 12V battery (no direct AC power)

NOTE: No ball-catching mechanisms that fully enclose the ball allowed (partial possession permitted)

Deliverables

- Fully functioning soccer robot(s)
- Technical sheet describing components and mechanisms used

Expected Outcomes

- Hands-on experience in mechanical design, electronics, and control systems
- Improved teamwork and strategic planning skills
- Exposure to competitive robotics environment
- Recognition for innovation and performance.

Eligibility Criteria

- Open to all B.Tech students at IIIT Vadodara
- First-year students are encouraged to participate
- No prior experience required — mentorship sessions will be conducted before the event

Rules and Regulations

- Matches will last 5–7 minutes (half-time break in between)
- Standard scoring: 1 goal = 1 point
- Robots must not cause intentional damage to other robots or the field
- No direct human interference with the ball during matches
- Referee decisions are final and binding
- Limited time-outs and repairs allowed between halves

Prizes (to be generated from Sponsorships)

Title	Price worth
Winner	Rs.4000
1st Runner up	Rs.2500
2nd Runner Up	Rs.1500
Total	Rs.8000

Budget Breakdown

- Prize distribution
- Soccer field materials (wooden base, turf mat, goalposts, markings)
- Logistics and setup

Hardware and Components Required

EVENT EQUIPMENTS (RoboSoccer)

Here we are considering **10 teams each consisting of 4 members***.**

- 4 Gear Motors 12v 300 rpm
- 4 Big Wheels (good quality)
- 4 Li-ion cells with case (4 or 3-1 case)
- 1 DPDT Joystick Remote Module
- 1 Metal Chassis and nutbolts
- 3m flexible electric cable wire
- Esp32

**The Items listed above are just for 1 team.*

Some extra motors in case of need 10 geared motor 12v 300rpm

Tools

- Li-ion Battery Charger
- Soldering Iron
- Soldering Wax and Wire
- Gluegun and Sticks
- Multimeter
- Wire cutter
- Electric Tape

Conclusion

Robo Soccer blends the fun of football with the ingenuity of robotics. Hosted by **9 Bit – The Robotics Club**, it will challenge students to design robots that can play, compete, and entertain, fostering both engineering and sporting spirit. This event aligns with the club's vision to make robotics both exciting and interactive for all students of IIIT Vadodara.

Annexure C

CEREBRO 2026-2027

Prudentia

Event Title: Prudentia

Organizing Club: Finance & Consulting Club

Duration: 5 Days

Modality: Online

Objective

Prudentia offers an immersive introduction to financial markets through a simulated stock trading competition. It replicates the fast-paced, high-pressure environment of real trading, from entering positions to managing targets and stop losses. The event aims to develop a trader's mindset, improve decision-making under pressure, and provide practical exposure to concepts like risk management, portfolio diversification, and market sentiment.

Event Description

Prudentia is an individual online stock trading simulation organized by the Finance and Consulting Club of IIIT Vadodara. Using virtual capital and real or near-real market data, participants will navigate dynamic conditions to maximize returns. The event tests skills in chart reading, news interpretation, risk management, and emotional control, offering a realistic and engaging trading experience open to students from across institutions.

Rules and Regulations

- Individual competition; no team entries.
- Pre-event registration required; one entry per participant.
- Trades must be made within specified market hours on the chosen platform.
- Event runs for multiple days; portfolios must be managed throughout.
- Rankings based on final leaderboard standing.
- Misconduct or rule violations will lead to disqualification.
- Organizers may verify participant identity; their decisions are final.

Eligibility Criteria

- Participation in Prudentia is open to all undergraduate students currently enrolled in any accredited academic institution.

Prizes (to be generated from Sponsorships)

Sr.	Prizes	Amount
1.	Winner	Rs. 3,500
2.	1st Runner up	Rs. 2,500
3.	2nd Runner up	Rs. 1,500
4.	IIITV First Year Special	Rs. 1,000
5.	Platform Fee	Rs. 1,000
	Total	**Rs. 9,500**

Conclusion

Prudentia, organized by the Finance and Consulting Club, offers a realistic and engaging taste of the stock market's fast pace. It promotes strategic thinking, risk management, and confident decision-making under pressure. The event aims to spark interest in finance, boost financial literacy, and inspire future investors, while showcasing outstanding talent through this flagship competition.

Annexure D

CEREBRO 2026-2027

Retro Market

Event Title: Retro Market
Organizing Club: Finance & Consulting Club
Duration: 2 Hours
Modality: In-person

Objective

Retro Market aims to revive the nostalgic essence of floor-based trading, the loud, fast-paced, and adrenaline-filled environment once seen in iconic trading rings like the Bombay Stock Exchange. This event gives first-year students a unique chance to experience the energy and chaos of the open outcry trading system, where shouting, hand gestures, and swift thinking ruled the market. The event encourages spontaneity, observation, and trading instincts in a high-pressure yet fun-filled environment.

Event Description

Retro Market is an offline trading simulation that recreates the pre-digital era of open outcry trading. Participants act as traders in a mock ring, using paper slips, vocal bids, and handwritten deal confirmations to buy and sell fictional company stocks with fluctuating prices. Exclusive to first-year students of IIIT Vadodara (Gandhinagar campus), the event offers a fast-paced, interactive introduction to old-school stock trading.

Rules and Regulations

- Individual event for first-year IIIT Vadodara, Gandhinagar students; no prior registration needed.
- Trades must be on official slips; verbal trades count only if documented.
- Slip-writing format will be explained beforehand; only valid slips accepted.
- All trades must occur within the set time; late slips won't count.
- Final value includes booked trades and stock holdings at final prices.
- All slips must be submitted for evaluation.

Eligibility Criteria

- Participation in Retro Market is exclusively open to undergraduate students of IIIT Vadodara, Gandhinagar campus.

Prizes (to be generated from Sponsorships)

Sr.	Prizes	Amount
1.	Winner	Rs. 3,000

2.	1st Runner up	Rs. 2,000
3.	2nd Runner up	Rs. 1,500
	Total	**Rs. 6,500**

Infrastructural Requirements

- A separate area to conduct the event

Conclusion

Retro Market is where chaos meets charm, no laptops, no apps, just good old-fashioned yelling, scribbling, and sealing deals on paper. Inspired by the buzzing floors of the Bombay Stock Exchange, this event is all about fast thinking, loud trading, and outshouting your way to the top. Whether you walk away with profits or just hilarious memories, one thing's for sure: you won't forget the thrill of floor trading in this wild throwback experience. So bring your voice, your hustle, and your game face, the market bell is about to ring!

Annexure E

CEREBRO 2026-2027

Trio-Codejam

Event Title: Trio-Codejam
Organizing Club: Coding Club
Venue: IIIT Vadodara - Gandhinagar Campus
Duration: 2 Hours
Date: 31 October, 2026
Modality: In-Person

Objective

To test individual coding skills while fostering seamless teamwork and communication among team members, who must build upon each other's work without direct interaction.

Event Description

A coding challenge unlike any other, where individual expertise merges seamlessly with collaborative prowess. Each member is granted a 25-minute window to tackle a series of intricate coding puzzles in this electrifying team event. The catch? There's no direct communication allowed between teammates. As one member completes their segment, the next steps in, building upon the foundation laid before them. With challenges being solved progressively, this format not only tests individual coding skills but also demands synchronized teamwork and strategic thinking. Trio-Codejam is designed to redefine the boundaries of collaboration and innovation through this exhilarating competition.

Rules and Regulations

- A team must consist of 3 members with at least one teammate from the first-year batch.
- The team has to bring its laptop which will be common for each teammate.
- Usage of code templates is allowed.
- During the event, the teammate who has completed his time slot will not interact with his other teammates yet to code.
- The teammate has to immediately cease typing as soon his time slot is over, failure to comply will result in immediate dismissal.
- Commenting in the code or using mnemonic names for variables will be allowed.
- The round will follow the ACM-style ranking system.
- Any plagiarism or attempt to cheat will lead to immediate disqualification.
- In case of any discrepancy, the organizers' decision will be final.

Eligibility Criteria

- College Affiliation: The participant must be currently enrolled as a student at a college or university, The Team members should be from the same college.
- Code of Conduct: Participants are expected to adhere to the event's code of conduct, promoting a positive and respectful environment for all involved

Infrastructural Requirements

- Minimum two classrooms specifically in 9th block for internet accessibility

Logistics and Technical Requirements

- WiFi facility

PRIZES (to be generated from Sponsorships)

Sr.	Prizes	Prizes Worth
1.	Winner	3,000.00
2.	1st Runner up	2,000.00
3.	IIITV FY Special	1,000.00
	Total	**6,000.00**

Conclusion

Cerebro introduces an innovative team event, emphasizing individual coding skills and seamless teamwork. Participants tackle challenging questions in 25-minute slots, passing the baton without communication. With questions unlocking sequentially, the event fosters collaboration and problem-solving.It aligns with Cerebro's mission to promote technical excellence and teamwork, enriching the fest's atmosphere and contributing to its success.

CEREBRO 2026-2027

CodeClash

Event Title: CodeClash
Organizing Club: IIITV CODING CLUB
Venue: Online
Duration: 3 HR
Modality: Online (CodeForces)

Objective

CodeClash is a competitive programming contest where participants will face high-quality coding challenges. The aim is to test and showcase their programming skills, problem-solving abilities, and algorithmic thinking in a fun and competitive environment.

Event Description

This is a team event with a team size of three people. The competition consists of a single round. It is an online programming competition that comprises numerous programming tasks designed to put competitors' data structures and algorithmic skills to the test. It will be hosted on **CodeForces** online. The winners will be chosen based on their ranking and performance in the online contest. The round will be conducted under the ICPC format.

Rules

- Any type of plagiarism detected will lead to immediate disqualification ● A team must contain 3 members in order to be eligible for prizes.
- Team members should be of the same institute.
- All the members of the teams should be of First Year (to be eligible for IIITV First Year only Prize).
- In case of discrepancy, the Organizer's decision will be final.

Eligibility Criteria

- College Affiliation: The participant must be currently enrolled as a student at a college or university, The Team members should be from the same college.
- Code of Conduct: Participants are expected to adhere to the event's code of conduct, promoting a positive and respectful environment for all involved

Prizes (to be generated from Sponsorships)

Prize Title	Prizes (INR)
Winner	3000
First Runner Up	2250
Second Runner Up	1800

IIITV FY Special	1500
Total	9750

Conclusion

As the curtains close on our proposal, it's evident that "CodeClash" our competitive programming contest, stands as a beacon of innovation and excellence within the esteemed Cerebro Tech Fest. With a steadfast focus on igniting creativity, nurturing technical prowess, and propelling our institution towards technological prowess, this event embodies the very spirit of Cerebro.

By providing a platform for students to showcase their coding skills and fostering an environment where innovation flourishes, we not only shape the future of our institution but also contribute to the broader landscape of technological advancement. With unwavering confidence in the potential of this contest to drive success and enhance Cerebro's reputation, we eagerly anticipate the transformative impact it will have on our college community.

CEREBRO 2026-2027

Valorant League

Event Title: Cerebro Valorant League
Organizing Club: Arcadia Gaming Club
Duration: Last Week of October
Modality: Online

Objective

To create a thrilling, audience-friendly event that adds excitement and diversity to the tech fest, complementing the technical and strategical skills of the players.

Event Description

The Cerebro Valorant Showdown is a fast-paced, online-only eSports event designed to bring together students from different colleges to compete in Riot Games' popular 5v5 tactical shooter - Valorant. Teams representing their respective colleges will face off in a structured knockout format, where strategy, coordination, and reflexes will determine the champions.

- **Mode:** Competitive (5v5, standard Valorant rules).
- **Format:** Knockout stages leading up to semi-finals and a grand finale.
- **Match Structure:**
  - Early rounds – Best of 1.
  - Semi-finals - Best of 3.
  - Finals - Best of 3.

The event promises an action-packed experience for both players and spectators, blending the thrill of gaming with the spirit of the tech fest. By focusing on fair play and team synergy, the competition ensures that every participating college has a chance to shine on the virtual stage.

Eligibility Criteria

Participation is open to all undergraduate students from any accredited college or university in India.

Team Composition

- **Team Size:** 5 players (mandatory) + up to 2 substitutes.
- All players must be enrolled in the same college.
- Each team must register with a team name and a team captain.

Rules and Regulations

- It is a team competition; every team must have exactly 5 players (and optionally up to 2 substitutes).
- All team members should belong to the same institute/college.
- Teams must submit valid proof of enrollment; failure to do so will lead to elimination.
- Any use of cheats, hacks, or unfair advantage will result in immediate disqualification.
- Players are expected to maintain sportsmanship; any abusive chat, harassment, or misconduct will result in disqualification.
- Organizers' and referees' decisions will be final.

Additional Notes

- **Registration Process:** A detailed registration link and deadlines will be provided closer to the event date.
- **Match Monitoring:** Referees/observers will be present in all matches to ensure fair play.

Prizes (to be generated from Sponsorships)

CEREBRO 2026-2027

BGMI League

Event Title: Cerebro BGMI League
Organizing Club: Arcadia Gaming Club
Duration: Last Week of October
Modality: Online

Objective

To create a competitive yet entertaining gaming event that highlights teamwork, reflexes, and survival skills while adding thrill and variety to the Tech Fest.

Event Description

The Cerebro BGMI League is a high-intensity, online-only battle royale event where students from different colleges will compete to be the last team standing in Krafton's Battlegrounds Mobile India (BGMI). Teams representing their respective colleges will participate in a structured series of matches across official BGMI maps. Survival, coordination, and tactical awareness will be the keys to securing victory.

- Mode: Battle Royale (Squad mode - 4 players per squad).

Eligibility Criteria

Participation is open to all undergraduate students from any accredited college or university in India.

Team Composition

- Team Size: 4 players (mandatory) + up to 1 substitute.
- All players must be enrolled in the same college.
- Each team must register with a team name and a team captain.

Rules and Regulations

- It is a team competition; every team must have exactly 4 players (and optionally 1 substitute).
- All team members should belong to the same institute/college.
- Teams must submit valid proof of enrollment; failure to do so will lead to elimination.
- Any use of emulators, cheats, hacks, or third-party tools will result in immediate disqualification.
- Players must ensure stable internet connectivity during matches.
- Players are expected to maintain sportsmanship; any abusive chat, harassment, or misconduct will result in disqualification.
- Organizers' and referees' decisions will be final.

Additional Notes

- Registration Process: A detailed registration link and deadlines will be provided closer to the event date.
- Match Monitoring: Referees/observers will be present in all matches to ensure fair play.
- Technical Support: Teams must ensure their devices are updated to the latest BGMI version before the event.

Prizes (to be generated from Sponsorships)

Positions	Prize Money
Winner	Rs. 3,000.00
Runner Up	Rs. 2,000.00
Total	Rs. 5,000.00

CEREBRO 2026-2027

CODM League

Event Title: Cerebro CODM League
Organizing Club: Arcadia Gaming Club
Duration: Last Week of October
Modality: Online

Objective

To create a competitive yet entertaining gaming event that highlights teamwork, reflexes, and tactical skills in Call of Duty: Mobile, while adding thrill and variety to the Tech Fest.

Event Description

The Cerebro CODM League is a fast-paced, online-only eSports event where students from different colleges will compete in Activision's Call of Duty: Mobile. Teams representing their respective colleges will battle in structured competitive matches across official CODM maps.
Strategy, coordination, and sharp reflexes will determine the champions.

- **Mode:** Multiplayer Ranked (5v5 competitive).
- **Format:** Knockout stages leading up to semi-finals and finals.
- **Match Structure:**
    - Early rounds - Best of 1.
    - Semi-finals - Best of 3. ○
    Finals - Best of 3.

The event promises an exciting experience for both players and spectators, blending the thrill of gaming with the spirit of the tech fest. By focusing on fair play and team synergy, the competition ensures that every participating college has a chance to shine on the virtual stage.

Eligibility Criteria

Participation is open to all undergraduate students from any accredited college or university in India.

Team Composition

- **Team Size:** 5 players (mandatory) + up to 1 substitute.
- All players must be enrolled in the same college.
- Each team must register with a team name and a team captain.

Rules and Regulations

- It is a team competition; every team must have exactly 5 players (and optionally 1 substitute).
- All team members should belong to the same institute/college.
- Teams must submit valid proof of enrollment; failure to do so will lead to elimination.
- Any use of cheats, hacks, or third-party tools will result in immediate disqualification.
- Players must ensure stable internet connectivity during matches.
- Players are expected to maintain sportsmanship; any abusive chat, harassment, or misconduct will result in disqualification.
- Organizers' and referees' decisions will be final.

Additional Notes

- **Registration Process:** A detailed registration link and deadlines will be provided closer to the event date.
- **Match Monitoring:** Referees/observers will be present in all matches to ensure fair play.
- **Technical Support:** Teams must ensure their devices are updated to the latest CODM version before the event.

Prizes (to be generated from Sponsorships)

Positions	Prize Money
Winner	Rs. 2,000.00
Runner Up	Rs. 1,000.00

CEREBRO 2026-2027

Clash Royale League

Event Title: Cerebro Clash Royale League
Organizing Club: Arcadia Gaming Club
Duration: Last Week of October
Modality: Online

Objective

To create a fast paced strategic 1v1 mobile gaming event that tests individual decision-making, deck-building, and real-time tactical skills in Clash Royale, brining variety to the Tech Fest.

Event Description

The Cerebro Clash Royale League is a competitive, online-only eSports event where students will compete head-to-head in Supercell's Clash Royale. Participants will battle in structured 1v1 matches.

- **Mode:** 1v1 Friendly Battle.
- **Format:** Single-elimination knockout stages leading up to semi-finals and finals.
- **Match Structure:**
  - Early rounds - Best of 3.
  - Semi-finals - Best of 5.
  - Finals - Best of 5.

Eligibility Criteria

Participation is open to all undergraduate students from IIIT Vadodara

Team Composition

- **Team Size:** 1 player (Solo format).
- Each participant must register with their in-game name and player tag.

Rules and Regulations

- It is an individual competition; every match is strictly 1v1.
- Participants must submit valid proof of enrollment; failure to do so will lead to elimination.
- Any use of third-party tools, account sharing, or exploiting bugs will result in immediate disqualification.
- Players must ensure stable internet connectivity during matches. Disconnects will not warrant a rematch unless agreed upon by the referee.
- Organizers' and referees' decisions will be final.

Additional Notes

- **Registration Process:** A detailed registration link and deadlines will be provided closer to the event date.
- **Technical Support:** Players must ensure their devices are updated to the latest Clash Royale version before the event.

Prizes (to be generated from Sponsorships)

Positions	Prize Money

CEREBRO 2026-2027

ARCADE ZONE

Event Title: Arcade Zone Requirement for Arcadia Gaming Club
Organizing Club: Arcadia Gaming Club
Duration of Requirement:
Modality: Offline (for arcade zone during events and festivals)

Objective

To create an exciting Arcade Zone for major offline events such as Cerebro, HackIIITV, and hostel fests by renting Xbox and controllers. The arcade setup will serve as a high-engagement recreational space for participants and spectators, adding a fun, interactive, and social dimension to the technical and cultural festivals organized by IIIT Vadodara.

This initiative aims to:

- Provide a unique entertainment experience alongside competitive tournaments.
- Boost event participation and engagement by offering a casual gaming area.
- Create a vibrant environment that encourages interaction among students and visitors.

Requirement Description

The club proposes to rent the following equipment for setting up the Arcade Zone during offline events:

- Xbox one/360
- PS5
- PS5 controllers
- Racing Wheel

Budget Estimate

Item	Quantity	Estimated Cost (INR)
Consoles and Controllers	3-4	Rs. 25,000.00
Total		**Rs. 25,000.00**

Justification

The arcade zone will serve as a high-engagement attraction point for all major events.

- Encourages participation by providing a casual gaming and entertainment space.
- Adds value to the flagship events under Cerebro by diversifying activities. ● Fosters social interaction among participants and spectators.

CEREBRO 2026-2027

Design To Develop

Event Title: Design to Develop (D2D)
Organizing Club: DOT - The Design Club & Coding Club
Venue: IIIT Vadodara, Gandhinagar Campus
Date: 30 October 2026
Modality: Offline

Objective

To provide a comprehensive platform for students to demonstrate their skills in the entire design and development lifecycle. This event will challenge participants to conceptualize, design, and develop a fully-functional front-end prototype. The event aims to encourage creativity, innovation, and practical implementation of design principles. Additionally, it will foster collaboration, enhance presentation skills, and recognize excellence in both design and development.

Event Description

Design to Develop is a thrilling team-based competition that challenges participants to create a design prototype and transform it into a functional front-end application. Organized in collaboration between DOT - The Design Club and the Coding Club IIITV, the event is divided into three distinct phases:

- **Phase 1:** Teams will create a Figma prototype based on a problem statement they select.
- **Phase 2:** Teams will present their design, explain their UX decisions, and showcase their design thinking process.
- **Phase 3:** Teams will develop the front-end of their design using hardcoded data (backend development is optional and will be considered a plus).

Participants will need to demonstrate creativity, design thinking, and technical skills, and the best teams will be recognized for their ability to bring their ideas to life.

Format

- **Team Competition:** Participants will work in teams to collaborate on the design and development phases. The use of Figma for prototyping is mandatory, while any technology can be used for frontend development.
- **Presentation:** Teams will present their designs and development process in Phase 2, showcasing their rationale behind design choices, UX strategies, and development approaches.

Expected Outcomes

- Enhanced design and development skills.
- Increased understanding of the complete design and implementation process.
- Improved collaboration and teamwork abilities.
- Recognition of excellence in design and front-end development.
- Inspiration to innovate and pursue a career in digital design and development.

Eligibility Criteria

Participation is open to all undergraduate students of IIITV.

Team Composition

- **Team Size:** 3 members
- All team members must be undergraduate B.Tech students.
- Interdisciplinary teams (students from different B.Tech specializations) are highly encouraged.

Rules and Regulations

- It is a team competition and every team should consist of exactly 3 members, no less or more.
- If caught in plagiarism, the team will be directly eliminated.
- Projects/presentations must be submitted on time. Any failure will result in elimination.
- Submissions containing any kind of harassment, abuse, or profanity will be disqualified immediately.
- Every team must make a login page & a landing page, followed by at least two more pages for the preferred problem statement.
- All decisions made by the judges and the organizers are final.

Additional Notes

• Registration Process: A detailed registration process with deadlines and instructions will be provided closer to the event date.

Prizes (to be generated from Sponsorships)

Prize Title	Prizes Worth (INR)
Winner	Rs. 4,000
1st Runner Up	Rs. 2,000
2nd Runner Up	Rs. 1,000
FY Special (IIITV)	Rs. 1,000
Total	**Rs. 8,000**

Budget Breakdown: Only prize distribution.

Conclusion

Design to Develop, co-organized by DOT - The Design Club and Coding Club IIITV, is an exciting teambased competition that encapsulates the spirit of innovation within CEREBRO. By focusing on both design and development, this event challenges participants to not only imagine but also create. It promises to inspire creativity, showcase talent, and foster excellence in the fields of UI/UX design and front-end development. We are excited about the potential impact of this event on CEREBRO's mission and the broader design and development community.

CEREBRO 2026-2027

Clue to Canvas

Event Title: Clue to Canvas (C2C)
Organizing Club: DOT - The Design Club
Venue: IIIT Vadodara, Gandhinagar Campus
Date: 31st October 2026
Modality: Offline

Objective

To test participants' conceptual thinking and visual storytelling ability by challenging them to interpret an abstract prompt, statement, or clue and translate it into a compelling piece of graphic design. The event focuses purely on visual design - posters, illustrations, campaign creatives, infographics, or magazine covers - with no website/app UI or UX component involved.

Event Description

Clue to Canvas (C2C) is a pure graphic-design competition built on a "Think → Interpret → Create" format. Each team of strictly two participants is handed a tricky scenario, question, or statement - with no explanation provided - and must interpret it creatively to produce a single, complete visual artwork. There is no predetermined "correct" design; participants are judged on how intelligently and creatively they interpret the given clue and communicate it visually, using typography, illustration, photography, shapes, symbols, or any combination of them.

- **Round 1 – Interpretation Round:** Each team randomly draws one conceptual prompt or statement (e.g. "The most connected generation in history has never felt more disconnected" or "What if humans had to pay for oxygen?") from a curated set, and creates a complete poster/illustration interpreting it within the given time limit.
- **Round 2 – Constraint Challenge:** Shortlisted teams face a surprise constraint - such as the Three-Color Challenge, One-Word Challenge, or a Random Combination (object + emotion + technology) - and must design a fresh visual response within a short, fixed time window (e.g. 30–45 minutes).

This structure turns the event into a creative design battle rather than a conventional poster-making contest, rewarding sharp interpretation and speed of ideation alongside visual craftsmanship.

Format

- **Team Competition:** Each teams works independently, drawing their own prompt and producing their own artwork within the event window.
- **Judging Round:** Judges shortlist the strongest entries from Round 1 for the Round 2 constraintbased tie-breaker before finalizing the winners.

Expected Outcomes

- Enhanced conceptual and creative thinking skills.
- Improved ability to visually communicate abstract or complex ideas without relying on text.
- Exposure to real-world design constraints and rapid ideation under time pressure.
- Recognition of originality, interpretation, and visual craftsmanship.
- Inspiration to pursue graphic design and visual communication further.

Eligibility Criteria

Participation is open to all undergraduate students currently in IIITV.

Team Composition

- **Team Size:** 2 persons
- Open to all undergraduate students of IIITV.

Rules and Regulations

- Each participant will randomly draw one conceptual prompt/statement from a curated set for Round
- Designs must be created live during the event window; no pre-made or pre-drawn artwork will be accepted.
- Participants may use any visual medium - digital tools (e.g. Photoshop, Illustrator, Canva, Procreate, figma).
- Only standalone visual artwork (poster, illustration, campaign creative, infographic, or cover) is permitted; website, app, or UI/UX designs will not be accepted.
- Use of plagiarized content or unauthorized AI-generated imagery is not permitted unless explicitly allowed for a specific challenge round.
- Submissions containing any kind of harassment, abuse, or profanity will be disqualified immediately.
- Judging is based on interpretation, creativity, visual communication, and craftsmanship - not on there being one "correct" interpretation.
- All decisions made by the judges and the organizers are final.

Additional Notes

- Registration Process: A detailed registration process with deadlines and instructions will be provided closer to the event date.
- Participants are advised to bring their own laptops/tablets/phones as required for their preferred medium.

Prizes (to be generated from Sponsorships)

Prize Title	Prizes Worth (INR)
Winner	Rs. 3,500
1st Runner Up	Rs. 2,000
2nd Runner Up	Rs. 1,500
FY Special (IIITV)	Rs. 1,000
Total	**Rs. 8,000**

Budget Breakdown: Only prize distribution.

Conclusion

Clue to Canvas, organized by DOT - The Design Club, brings a purely conceptual, interpretation-driven design challenge to CEREBRO. By stripping away technical and development requirements, the event puts creativity, visual storytelling, and quick thinking at the center of the competition. It gives participants a platform to showcase how they see and translate ideas into imagery, adding a fresh, purely artistic dimension to the fest and reinforcing DOT's mission to celebrate design in all its forms.

CEREBRO 2026-2027

EQUINOX

Event Title: Equinox

Organizing Club: Enigma – The Mathematics Club
Venue: IIIT Vadodara Gandhinagar Campus.
Duration: 30 October 2026 2 Hrs

Modality: Offline

Team Size: 2

Objective

The objective of Equinox is to test mathematical proficiency and teamwork through a multi-round buzzer competition, with the team accumulating the highest points emerging as the winner.

Event Description

Equinox features multiple rounds of intense competition, each packed with a variety of mathematical problems covering but not limited to.-

- Basic Mathematics
- Algebra
- Calculus
- Combinatorics
- Probability and Statistics
- Geometry
- Discrete mathematics
- Linear Algebra

Eligibility Criteria

- All students of IIIT, Vadodara are eligible for the event.

Infrastructural Requirements

- A separate classroom for successful conduction of event.

Prizes (to be generated from Sponsorships)

Sr.	Prizes	Amount
1.	Winner	3,000.00
2.	Runner up	2,000.00
3.	1st Year Prize	1,500.00

4.	All Girls Team	1,000.00
	Total	**7,500.00**

Conclusion

The primary objective of this Competition is to provide participants with an opportunity to showcase their depth of understanding across different mathematical disciplines. By engaging in rigorous problem-solving within a limited timeframe, contestants will not only demonstrate their mathematical expertise but also refine their critical thinking and analytical skills.The pressure is on as the clock ticks down and the competition heats up. With each question, you'll need to think fast and work together seamlessly with your teammate to come out on top. And when the final round is over, the team with the highest point total will be crowned the champions of Equinox. This event holds immense value for Cerebro-tech fest, as it enriches the academic dimension of the fest, appealing to math enthusiasts and problem-solvers alike.

CEREBRO 2026-2027

MATIKS MANIA

Event Title: Matiks Mania

Organizing Club: Enigma – The Mathematics Club
Venue: IIIT Vadodara Gandhinagar Campus.
Duration: 31 October 2026 2 Hrs

Modality: Offline

Team Size: Solo

Objective

The objective of Matiks Mania is to test participants' mathematical speed, accuracy, logical thinking, and decision-making skills through a series of fast-paced and competitive mathematical games. Participants will compete against opponents in various challenges, with quick thinking and precision being the key to securing victory.

Event Description

Matiks Mania is a fast-paced mathematical competition designed to make mathematical problem-solving engaging, competitive, and interactive. The event consists of multiple rounds based on the **Matiks** platform, where participants compete against each other in real-time mathematical challenges.
The competition will feature a variety of games, including but not limited to:

- **Sprint Duels** – A rapid-fire mathematical challenge where participants compete to solve problems as quickly and accurately as possible.
- **Cross Maths** – A crossword-style mathematical game requiring participants to use calculation and logical reasoning to complete the challenge.
- **Mind Snap** – A memory-based challenge where participants memorize a displayed pattern and reproduce it accurately after it disappears.

Each round will challenge participants in a different way, requiring them to balance **speed and accuracy**. Participants will earn points based on their performance across the rounds, and the participant/team with the highest overall score will emerge as the winner.

Eligibility Criteria

- All students of IIIT, Vadodara are eligible for the event.

Infrastructural Requirements

- A separate classroom for successful conduction of event.

Prizes (to be generated from Sponsorships)

Sr.	Prizes	Amount
1.	Winner	3,000
2.	Runner up	2,000.00
3.	1st Year Prize	1,500.00
4.	All Girls Team	1,000.00
	Total	**7,500.00**

Conclusion

Matiks Mania aims to make mathematics a fun, engaging, and competitive experience through fast-paced interactive games. By combining **speed, accuracy, problemsolving, and memory**, the event challenges participants to think quickly and perform under pressure. With its unique and entertaining format, Matiks Mania adds an exciting dimension to Cerebro and provides participants with an opportunity to showcase their mental mathematical and cognitive skills.

CEREBRO 2025-26

Tech-Hunt

Organizing Club: Technical Committee
Venue: IIIT Vadodara - Gandhinagar Campus
Date : 30th October 2026
Duration: 2:00 P.M. to 7:00 P.M.
Modality: In-Person

Objective

Encourage participants to think creatively and innovatively by presenting them with diverse technical challenges. Through problem-solving and brainstorming sessions, the event fosters a culture of innovation and out-of-the-box thinking.

Event Description

In this dynamic and interactive event, participants will form teams and embark on a thrilling quest to solve a series of technical challenges designed to test their skills, knowledge, and creativity across various domains of technology. From coding conundrums to hardware troubleshooting, from algorithmic riddles to brainstorming sessions on emerging technologies, participants will encounter a diverse range of tasks that will push their limits and ignite their innovative spirit.

Rules and Regulations

- A Team of 3 People will be allowed.
- Internet and access to any AI is permissible

Eligibility Criteria

➢ The event is exclusively for all engineering students.

Infrastructural Requirements

● Access to entire Campus to hide and find the hints to the final treasure

Prizes (to be generated from Sponsorships)

Sr.	Prizes	Amount
1.	Winner	Rs. 5,000 + E-Goodie

2.	1st Runner up	Rs. 3,000 + E-Goodie
3	2nd Runner up	Rs. 2,000 + E-Goodie
4.	IIITV FY Special	Rs. 2,000
	Total	**Rs. 12,000 + 3,00,000 as E goodies**

E-Goodie Sponsors Worth approx. 56,000 will be targeted for the event .

Conclusion

Don't miss out on the opportunity to be part of "Tech Hunt - Unleashing Innovation," where passion meets innovation, and creativity knows no bounds. Join us for an unforgettable journey filled with excitement, learning, and the thrill of discovery. Let's unlock the future together.
